Reliance Industries Ltd	4.8%
Federal Bank Ltd	3.3%

## EQUITY OUTLOOK

---

The Indian equity market recorded its third consecutive monthly decline. Rising geopolitical tensions between Iran and the US and persistent concerns over AI-led disruption overshadowed improving corporate earnings and easing trade tensions after India sealed a key trade deal with the European Union and reached an interim trade framework with the US. The Nifty index declined 0.6%. Mid-cap. The index gained 1.2%, whereas the small-cap. index experienced a marginal increase, gaining 0.3%. The IT Index witnessed a sharp sell-off, declining 19% in the month. The rest of the sectors ended in green. Power (+9%), consumer durables (+7%) and healthcare (+6%) gained the most. Most global markets ended positive. South Korea was the top performer, up 20% in the month, followed by Thailand (+15%) and Taiwan (+11%). FIIs turned buyers to the tune of \$1bn (secondary) and DIIs remained net buyers to the tune of \$4.2bn.

On the domestic economy front, high frequency indicators (like E-way bill, GST collection, CPI, PMI) suggest marginal improvement in economy. Real GDP growth in 3QFY26 was 7.8%YoY (led by private consumption), down from 8.4% in 2Q. Despite a 1HFY26 GDP downward revision, advance estimate for FY26 real GDP growth was revised up to 7.6%YoY (from 7.4%). India manufacturing PMI hit four-month high of 56.9 in February up from 55.4 in January. GST Collection rose to ₹1.83 trn in Feb reporting a rise of by 8.1% as compared to previous year.

Other key developments: (1) the government budgeted GFD/GDP at 4.3% in the Union Budget 2027, (2) IT stocks came under sharp pressure after AI firm Anthropic unveiled new automation tools, (3) India and the United States announced a landmark trade deal, (4) the US Supreme Court in a 6-3 majority ruled the reciprocal tariff imposition by the US administration ineffective, (5) gold and silver gained 7% and 8%, respectively, the Indian rupee appreciated 1.1% and (6) 3QFY26 net income of the Nifty-50 Index grew 9.8% versus our expectation of 2.5% growth.

Overall, at the portfolio level, we remain invested in high quality franchisees and expect these businesses to continue to deliver healthy earnings growth over the medium to long term.
